

Retrospective Meeting

2020-06-04 / 10:30 - 11:30 / Zoom

What Went Well

1. What went great?
 - a. Made progress with modeling
 - b. We are on schedule, getting a better gauge with where we said we were going to be
2. Where specifically do you feel we made the biggest leap ahead?
 - a. Having actual models, seeing results
 - b. Having actual codes in the main function
 - c. We finally had a meeting with Arthur

What Didn't Go Well

1. When do you think we experienced the biggest challenge?
 - a. Not expecting duplicate issues
 - b. Git issues
2. Where did the biggest roadblocks come from?
 - a. Not for this week
3. Which problems came up the most often?
 - a. Git issues
4. Why were issues not complete/why issues were removed from sprint?
 - a. Training/testing data, waiting on Arthur

What was Learned

1. What struggles did you find the hardest to overcome?
 - a. Feeling like you have a clear understanding of a program layout, but difficulty in conveying information
2. What one thing would you change for next time?

3. How can we take what we learned and use it for the next sprint?
 - a. If it can be made into a module, it'll make your life easier
 - i. If function in main.py too complex, convert to module
 - b. Learned more about git

What's Still a Puzzle

1. What's your biggest uncertainty about what's happening outside our team?
 - a. Data labeling and tagging
 - b. Jiachen's take on our project progress and design
2. Where do we need to dig deeper into our plans or roadmap?
 - a. Look into how data gets queried later, add sleeper function
 - b. Database change and how that impacts our work/output
3. What key context are we missing to do our work well?
