

Retrospective Meeting

2020-06-18 / 10:30 - 11:30 / Zoom

What Went Well

1. What went great?
 - a. Model complete
 - b. UDL has flux working on their database
 - c. Started on the report
2. Where specifically do you feel we made the biggest leap ahead?
 - a. Model complete
 - b. Started on the report

What Didn't Go Well

1. When do you think we experienced the biggest challenge?
 - a. Code collaboration and making individual functions/modules work together
 - b. Time required for fixing code when switching from csv's to a different data format
 - c. Unexpected difficulties when working with InfluxDB
2. Where did the biggest roadblocks come from?
 - a. No roadblocks
3. Which problems came up the most often?
 - a. Code collaboration and making individual functions/modules work together
4. Why were issues not complete/why issues were removed from sprint?
 - a. Tasks in progress are multi-week tasks

What was Learned

1. What struggles did you find the hardest to overcome?
 - a. Code collaboration

- b. Not considering everything that could be causing an error when debugging
 - c. Reviewing previously written code without enough documentation
- 2. What one thing would you change for next time?
 - a. Get Grafana in a more shareable format
- 3. How can we take what we learned and use it for the next sprint?
 - a. This week's learnings not really applicable for next sprint b/c mostly documentation

What's Still a Puzzle

- 1. What's your biggest uncertainty about what's happening outside our team?
 - a. What the final deliverable for the Grafana dashboard look like
 - b. What does the handoff with UDL look like? (i.e. final meeting?)
- 2. Where do we need to dig deeper into our plans or roadmap?
 - a. Who is working on which documentation
(report/presentation/notebook/1 page summary)
- 3. What key context are we missing to do our work well?
 - a. What the final deliverable for the Grafana dashboard look like
