

Retrospective Meeting

2020-05-14 / 10:30 - 11:30 / Zoom

What Went Well

1. What went great?
 - a. Breaking tasks in granular form was helpful in keeping focus
 - b. Confirmation on NRCan classifications
 - c. Presentation with Scott!
2. Where specifically do you feel we made the biggest leap ahead?
 - a. More clarity on project objectives and methodology
 - b. Flow chart finalization
 - c. Directed our efforts more towards a product

What Didn't Go Well

1. When do you think we experienced the biggest challenge?
 - a. Underestimating certain tasks
 - i. Learn a little bit more each time
 - b. Wasted some time not understanding how the data will be used for the final product
 - i. When approaching a task think about why you're doing that and what is the end goal
 - c. Worked on tasks at the same time that were co-dependent
 - i. Next time prepare for that and account for the additional time
2. Where did the biggest roadblocks come from?
 - a. Not having confirmation on the NRCan classifications
3. Which problems came up the most often?
 - a. Finding information in one location
 - i. Updating Jira more often and/or linking google drive on Jira
4. Why were issues not complete/why issues were removed from sprint?

- a. A better understanding of the tasks required. We re-defined the plan
- b. Underestimated how long the exploration task would take
 - i. Everyone be more open about needing help/wanting to help
- c. Did not have enough time

What's Still a Puzzle

1. What's your biggest uncertainty about what's happening outside our team?
 - a. All these inconsistencies and how we are going to approach it
 - b. What can we expect as inputs from untagged buildings
 - c. What does the data mean, why was it labeled a certain way
 - d. Which database is more correct? Mirrored or SkySpark metadata
2. Where do we need to dig deeper into our plans or roadmap?
 - a. Move some tasks this week into modeling phase
 - b. Git workflow
 - i. Using GitHub repo more
